

Creating and Inspiring Healthier Lives.

Position Title:	Radiologic Technologist
Department:	Clinical Operations
Supervisor:	Chief Clinical Operations Officer
Supervisory Responsibilities:	None
FLSA Status:	Non-exempt

Summary:

The Radiologic Technologist is responsible to take radiologic images under the direction of medical providers. As a member of a comprehensive care team, coordinates with other healthcare professionals, including nurses and providers to ensure continuity of care and appropriate follow-up with patients. Performs patient assessments prior to and during radiologic procedures, preparing the room and the patient for the procedure, which in some cases may involve the oral or intravenous administration of contrast agents in order to improve image quality or obtain specific types of images, and records images. The Radiologic Technologist utilizes radiology equipment accurately, evaluates the quality of the study, while also taking steps to limit radiation exposure on parts of the body that do not require imaging through the use of additional equipment such as protective vests and helmets. In addition, the Radiologic Technologist must effectively communicate with the patient, family, and other healthcare workers as part of an effective patient centered care team.

All employees will exhibit the following behavioral traits:

Integrity and Trust

Individual is widely trusted and can present information and discuss situations in an appropriate and helpful manner, keeps confidences, admits mistakes, doesn't misrepresent him/herself for personal gain. Is respectful in action and communication with clients, patients and staff.
